PROVIDING COMPREHENSIVE ACA SOLUTIONS

Large Employer Status and FTE

We calculate your organization's full-time employee and full-time equivalents to determine if you are considered a large employer under ACA rules.

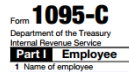

Employee Classification

We ensure that your employees are classified correctly, based on the number of hours they have worked each month. Companies are able to exclude sole proprietors, LLC owners, 2% owners of S-Corps, and family members.

Employee Coverage

We help you quickly determine and view those eligible full-time employees that have elected health insurance or opted out. We interpret your offer of health coverage to applicable ACA coding.

Reporting

We provide the required 1094-C (employer) and 1095-C (employee) forms and government data submissions automatically.

Insurance Affordability

We verify that your provided insurance falls in the "affordable" classification based on how much each employee earns, then recommend the proper Safe Harbor provision.

Pricing

We offer a competitive pricing solution that includes required 1094C / 1095C forms. It's the easiest and most affordable way to manage your Affordable Care Act compliance.
