

TRANSFORM THE WAY YOU COLLECT, MANAGE AND PROCESS YOUR EMPLOYEE TIME.

Our platform is a complete time & attendance system that can be used all on its own or as part of a complete human capital management solution, with human resources, payroll, and benefits enrollment. Our platform replaces tedious time-tracking procedures and completely eliminates manual collection of the information needed for payroll.

Timecard

The network is the nerve center of your time & attendance system. It connects various methods of time collection such as physical time clocks, the mobile app, or even self-service, providing maximum flexibility no matter where your employees are located or how they work. Our platform was born in the cloud, and engineered for the small-to-mid-sized employer. It offers simple, intelligent navigation, robust reporting and powerful configuration options.
